Market leaders in

SURFACE COATINGS

DooGooD
SURFACE COATINGS PTY LTD

"Providing the highest quality product, combined with the best customer service in the industry."

OUR DEDICATED MANAGEMENT TEAM

WHO WE ARE

Proudly Australian owned and operated since being established in 2001, Doogood Surface Coatings Pty Ltd has become a market leader in the specification and application of surface coating systems, servicing a wide variety of industries throughout Australia and abroad.

With an extensive range of high-quality surface treatments, products and services available, Doogood provides solutions to improve the appearance, performance and durability of many products used in the Automotive, Construction, Defence, Marine, Mining, Oil & Gas, Rail and Transport industries, just to name a few.

Doogood have the capacity to service large scale infrastructure projects right through to your everyday small domestic jobs. This comes on the back of a robust Quality Management System that is in place to ensure that all our customers receive a job that continually meets or exceeds their requirements and expectations.

Our experienced and friendly staff have a commitment to deliver the highest quality product combined with the best customer service in the industry and it is this dedication that sees more and more companies turning to Doogood Surface Coatings Pty Ltd as a trusted business partner.

WHY CHOOSE DOOGOOD

KNOWLEDGE

Doogood was established in 2001 on the back of many years' experience in the surface coating industry. Ever since, we have continued to expand by adding qualified and motivated personnel who are passionate about our business. We have successfully built a team that has a wealth of knowledge, allowing us to specify, apply, deliver, inspect and report to a level that often exceeds industry standards.

CONVENIENCE

With a wide range of products and services available, we have the resources to process and deliver jobs that would normally require multiple suppliers to complete. This results in faster turnaround times, less logistical headaches and cost savings for our customers. We can also provide a delivery service to anywhere in Australia, meaning that our customers can enjoy our one-stop shop service from just about any location around the country.

QUALITY

We have a robust Quality Management System in place which aims to provide our clients with improving products and services that continually meet or exceed their requirements and expectations. This continual improvement is demonstrated by repeatedly producing high quality outcomes that conform with industry standards, policies and regulations.

CUSTOMER SERVICE

Our friendly and efficient staff are here to help you every step of the way. From identifying your coating requirements through to production and despatch, we provide our customers with a no-fuss, streamlined process from start to finish.

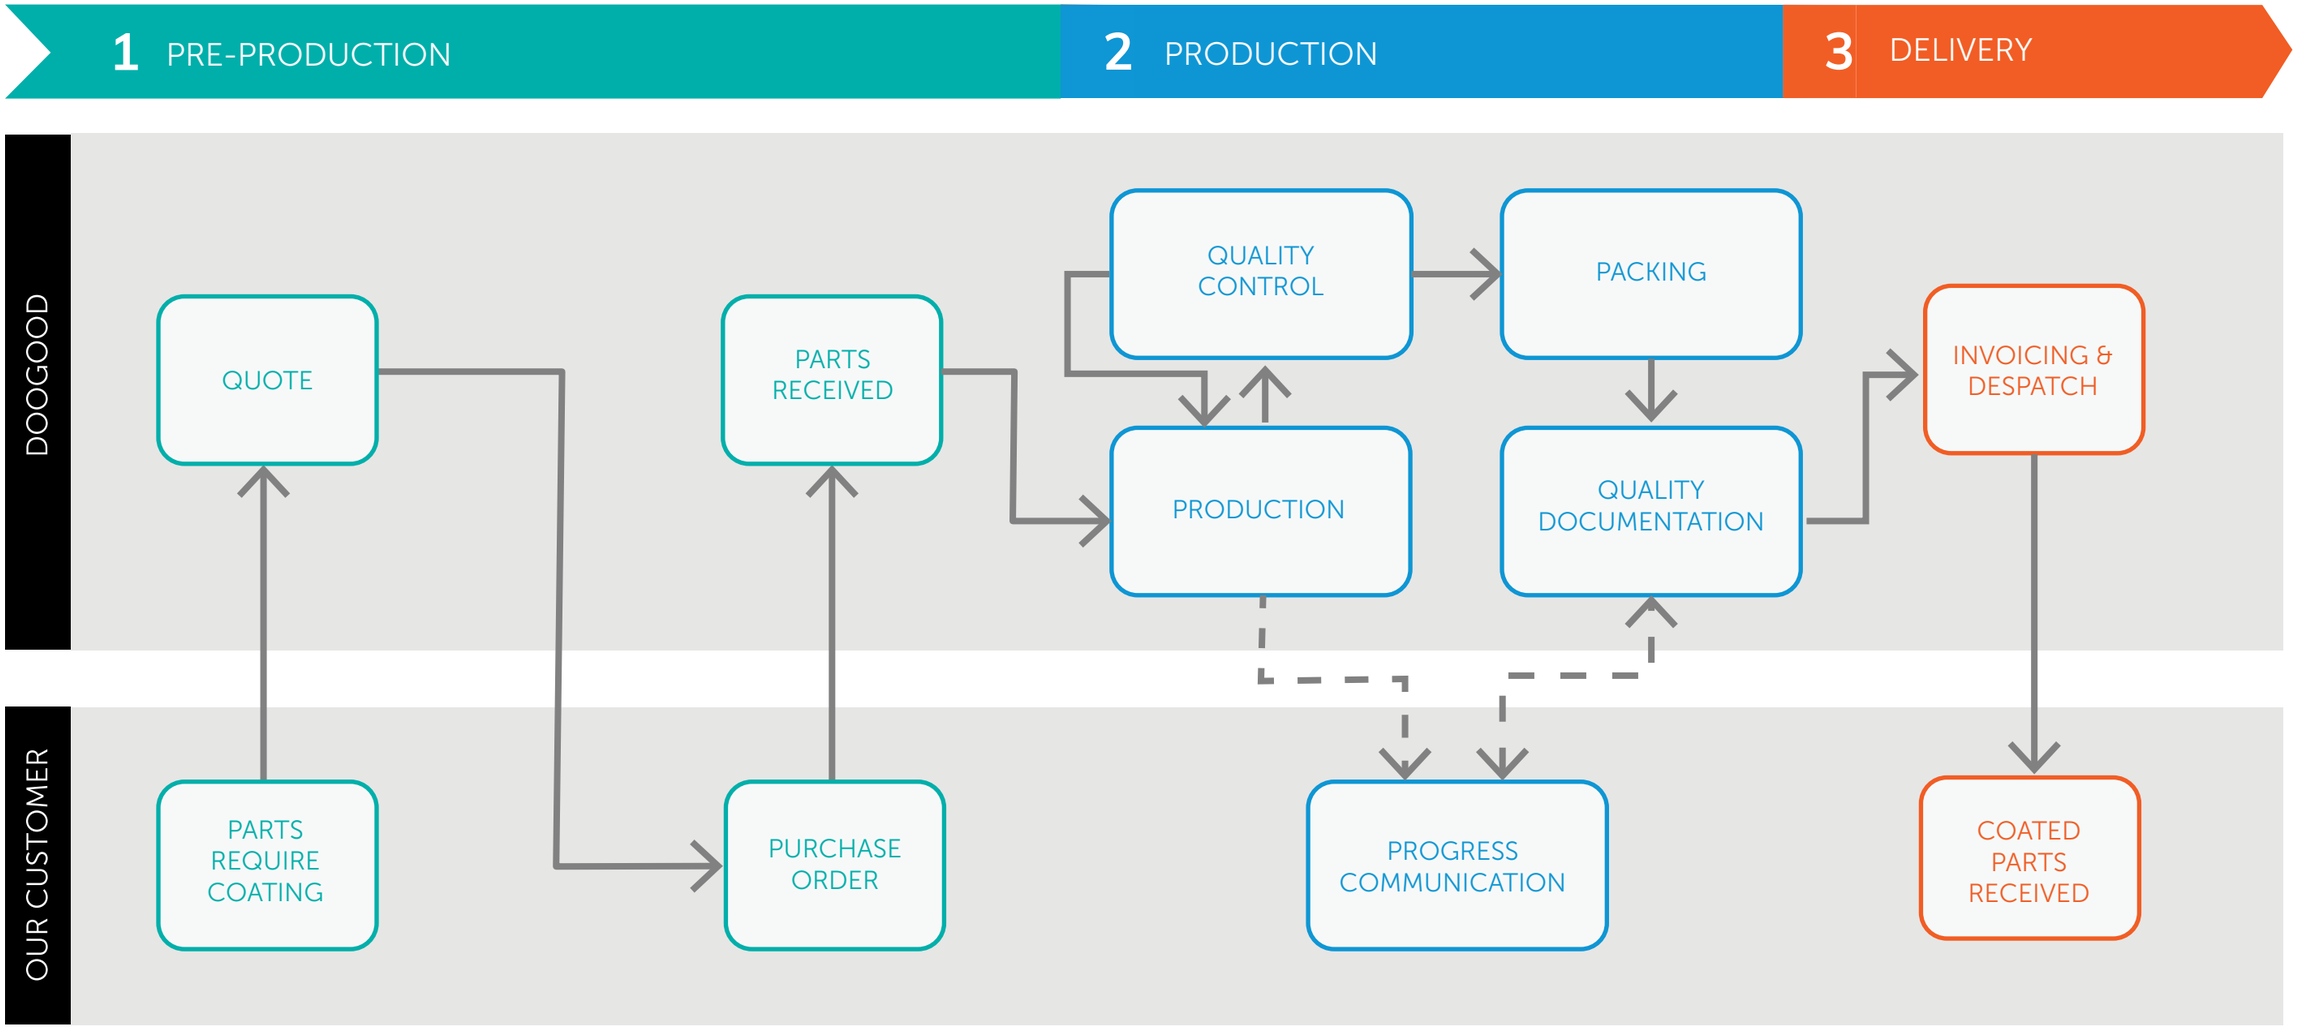
LARGE SCALE PROJECTS

THE DOOGOOD PROCESS

A simple but effective process that is designed to provide our customers with an outcome that consistently meets or exceeds their expectations. From the initial enquiry through to delivery of finished goods, all jobs receive equal personal attention to ensure they are delivered on time and to specifications provided.



QUOTING

We provide detailed quotes incorporating the varied requests of our customers.

PURCHASE ORDER

The critical communication document between our customers and the production team, identifying what is to be coated and how.

QUALITY

Inspections are carried out through each stage of production to ensure the end product meets our customer's needs.

DELIVERY

Care is taken to pack components in order to ensure they arrive safely and undamaged.

INDUSTRIES

Doogood was founded with a primary focus of servicing local manufacturing plants who supplied to the Oil & Gas, Automotive and Mining industries. Whilst we still have a strong focus of supplying into these industries today, our ever-expanding range of products and services allows us to find coating solutions for just about any industry.

- Specialised coating systems designed to prevent corrosion on low tolerance sub-sea components used in the **Oil & Gas** industry
- High build protective coating and/or powder coating systems for asset protection on **Infrastructure, Construction, Agriculture, Rail** and **Marine** projects
- Precise surface finishing for the **Aerospace, Medical** and **Transport** industries
- Fastener class coating systems for corrosion protection and thread performance in **Petrochemical, Construction, Mining & Rail** applications
- Non-Stick food grade coatings for the **Food & Beverage** industry
- Military standard paint systems for non-reflective, camouflage or protective applications for the **Defence** industry

QUALITY

By implementing the principles of ISO 9001 Quality, ISO 14001 Environmental and ISO 45001 OHS Management Systems, we have a robust system in place that allows us to demonstrate that we have met the necessary requirements, regulations and policies required by our industry. Our QMS justifies the organisation's full commitment to quality, improving the effectiveness and efficiency of performance.

Our Management team reviews the system regularly, re-incorporating the findings into the system for future customers to benefit from an improved experience. A culture of quality outcomes is fostered from top management down to the shop floor where the staff are responsible for quality output.

TO ENSURE A QUALITY CUSTOMER EXPERIENCE WE:

COMPLY WITH TECHNICAL & INDUSTRY STANDARDS

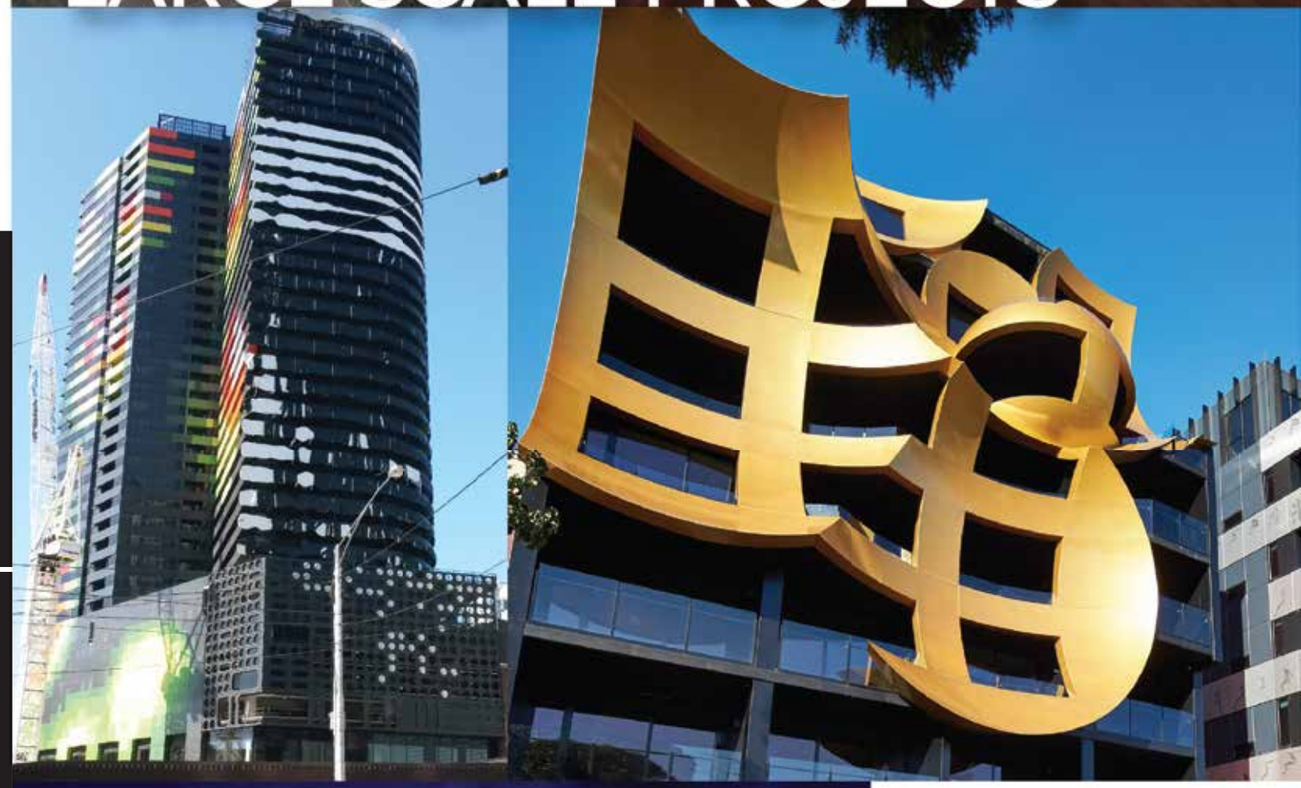
DELIVER ON TIME

MEET CUSTOMER REQUIREMENTS

We work to the minimum requirements reflected in the Australian standards relevant to our industry:

- AS1627 Metal finishing - Preparation and pre-treatment of surfaces
- AS2312 Guide to Protection of Structural Steel from atmospheric corrosion by the use of Protective Coatings
- AS3894 Site Testing of Protective Coatings
- Victorian OHS Legislation & Codes of Practice

LARGE SCALE PROJECTS



Due to our ever increasing capacity and diverse nature of the products and services we provide, Doogood Surface Coatings Pty Ltd are in a fantastic position to take on time-critical projects of varying scales. This provides great comfort to clients, builders and asset owners who can trust the job will be done to specifications, on time and to budget.
